## Snow Announcement

One winter morning a husband and wife were listening to the radio. They heard the announcer say, "We are going to have 8 to 10 inches of snow today. You must park your car on the even-numbered side of the street, so the snow plows can get through." So the wife went out and moved her car.

A week later while they were eating breakfast, the radio announcer said, "We are expecting 10 to 12 inches of snow today. You must park your car on the odd-numbered side of the street, so the snowplows can get through." The wife went out and moved her car again.

The next week they were again having breakfast when the radio announcer says, "We are expecting 12 to 14 inches of snow today. You must park..." Then the electricity went out. The wife was very upset, and with a worried look on face she said, "Honey, I don't know what to do. Which side of the street do I need to park on so the snowplows can get through?"

With love and understanding in his voice, the husband replied, "Why don't you just leave it in the garage this time?"
